- The following courses are considered prerequisites to the PhD program which may or may not be required, depending on the student's background, Master's degree and training. These courses *may* count toward the PhD requirement of 12 electives credit hours.
- Since an undergraduate level course in Statistics is a pre-requisite for CHSC 7820, all students must have completed such a course at time of admission, or will be required to take additional statistical training if they intend to complete CHSC 7820.
- On the recommendation of the student's advisor and on the approval of the Director of Community Health Sciences graduate program elective courses may be taken in other departments.

Total Credit Hours: 18 – 24 as standard; up to 12 credit hours as auxiliary which in some instances may represent the necessary prerequisites.
