- <sup>1</sup> The courses required in this program will satisfy the University Mathematics requirement.
- <sup>2</sup> MATH 1230, MATH 1510 or the former MATH 1520 may be used in lieu of MATH 1500.
- <sup>3</sup> CHEM 1122 and CHEM 1126 may be used in lieu of CHEM 1120.
- <sup>4</sup> PHYS 1050 may be used in lieu of PHYS 1020.
- <sup>5</sup> STAT 1150 may be used in lieu of STAT 1000.
- <sup>6</sup> Students will register for GEOL 3910 and GEOL 4260 in Summer term. NOTE: Students should be aware that they are expected to contribute to transportation and accommodation costs. See the department office at the beginning of each year for information.

**Important:** The Honours and Major programs need not be completed in the manner prescribed in the chart above. The chart indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program. (Letters in brackets indicate the minimum prerequisite standing in a specific course required for entry to the program).

GEOL 1400 is highly recommended to be taken in Year 1, but will not be considered when assessing entrance requirements to the program. If this requirement is not fulfilled in Year 1, it must be completed by the end of Year 2.

### Notes:

- To fulfil prerequisite requirements, a grade of 'C' must be achieved in any course stipulated as prerequisite to a further course in Earth Sciences, unless a higher prerequisite is stipulated in a course description.
- All courses are not offered every year. The course schedule for the current academic term is available from the Class Schedule in Aurora.
- Students registering in certain courses may be required to pay a portion of the costs associated with field trips. For details, contact the Department general office.
- Equivalent courses offered through Université de Saint Boniface may be used in lieu of the specified courses identified in the degree program chart.
