- All courses can be completed in University 1, or an equivalent program, if students do not wish to extend their program of study.
- Equivalent courses offered through the Université de Saint-Boniface may be used to satisfy program requirements.
- If students complete BIOL 2410 and BIOL 2420, the additional 3 credit hours could be used toward the requirement for 3 credit hours of Science Electives.
- Science Prerequisites. Students must meet the current Science prerequisites before registration for Science courses. See the Academic Calendar for the current course prerequisites. It is recommended the above prerequisites have been completed within the last five years.
- Prerequisites for CHEM 1100: [one of Chemistry 40S (50%), CSKL 0100 (P), or the former CHEM 0900 (P)] and [one of Applied Mathematics 40S (50%), Pre-calculus Mathematics 40S (50%), the former Mathematics 40S (300) (50%), or a grade of "C" or better in MSKL 0100].
- Students must meet the University of Manitoba Written English and Mathematics Requirements (https://catalog.umanitoba.ca/undergraduate-studies/general-academic-regulations/#Residence-Written-English) with a University level course completed within the last 10 years, must be at the 1000 level (or higher) and with a minimum grade of C in each. It is strongly recommended that these courses be completed within the elective credits indicated above.
