Students are strongly recommended to complete the Mathematics/ Physics requirements before the end of their second year.

• MATH 1200 may be used in place of MATH 1240;

• MATH 1210, MATH 1220 or MATH 1310 may be taken in place of MATH 1300;

- MATH 1230, MATH 1510, MATH 1524, or the former MATH 1520 may be taken in place of MATH 1500;
- MATH 1232 or MATH 1710 may be taken in place of MATH 1700.

If a student is considering selecting the Ecology and Evolutionary Biology Concentration or taking advanced level ecology courses, they should select BIOL 2300. BIOL 2390 cannot be used in place of BIOL 2300 for prerequisite purposes. Selecting BIOL 2390 will limit the number of 3000 and 4000 level BIOL courses a student can take.

6 These courses serve as prerequisites for many upper level BIOL courses. Students are strongly advised to plan ahead when selecting from this list. If more than 9 credit hours are taken, the extra credit hours will count as electives.

7 BIOL 2410 is prerequisite to BIOL 2420. BIOL 2410 can be used as an elective.

(Letters in brackets indicate minimum prerequisite standing for further study.)
